**IUGS/GSL publishing agreement**

This volume is published under an agreement between the International Union of Geological Sciences and the Geological Society of London and arises from IGCP project number 512.

GSL is the publisher of choice for books related to IUGS activities, and the IUGS receives a royalty for all books published under this agreement. Books published under this agreement are subject to the Society's standard rigorous proposal and manuscript review procedures.

It is recommended that reference to all or part of this book should be made in one of the following ways:

ARNAUD, E., HALVERSON, G. P. & SHIELDS-ZHOU, G. (eds) 2011. *The Geological Record of Neoproterozoic Glaciations*. Geological Society, London, Memoirs, **36**.

HOFFMAN, P. F., MACDONALD, F. A. & HALVERSON, G. P. 2011. Chemical sediments associated with Neoproterozoic glaciation: iron formation, cap carbonate, barite and phosphorite. *In*: ARNAUD, E., HALVERSON, G. P. & SHIELDS-ZHOU, G. (eds) *The Geological Record of Neoproterozoic Glaciations*. Geological Society, London, Memoirs, **36**, 67–80.

GEOLOGICAL SOCIETY MEMOIR NO. 36

# The Geological Record of Neoproterozoic Glaciations

EDITED BY

EMMANUELLE ARNAUD  
University of Guelph, Canada

GALEN P. HALVERSON  
McGill University, Canada

and

GRAHAM SHIELDS-ZHOU  
University College London, UK

London

## THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of over 10 000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**The Geological Society Publishing House** (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop ([accessible from www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult [www.geolsoc.org.uk](http://www.geolsoc.org.uk), or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

For information about the Society's meetings, consult *Events* on [www.geolsoc.org.uk](http://www.geolsoc.org.uk). To find out more about the Society's Corporate Affiliates Scheme, write to [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

### **British Library Cataloguing in Publication Data**

A catalogue record for this book is available from the British Library.  
ISBN 978-1-86239-334-9

### **Distributors**

For details of international agents and distributors see:  
[www.geolsoc.org.uk/agentsdistributors](http://www.geolsoc.org.uk/agentsdistributors)

Typeset by Techset Composition Ltd, Salisbury, UK  
Printed by CPI Antony Rowe, Chippenham, UK

Mexico Hut, 1978. Clockwise from the back left: Nick Cox (Motorboat Skipper and Engineer), Tim Druitt (Geologist), Robin ("Bruce") Davies (Motorboat Skipper and Engineer), Brian Harland (Expedition Leader), James Carter (undergraduate field assistant), Mike Hambrey (Geologist) and Paul Waddams (PhD Student), Ny-Ålesund, Svalbard

The editors dedicate this Memoir to Mike Hambrey and Brian Harland for their pioneering work in Neoproterozoic glacial geology and for their comprehensive 1981 volume *Earth's Pre-Pleistocene Glacial Record*, which inspired the present work.

## List of Reviewers

- Philip Allen  
*Imperial College London, UK*
- Carlos Alvarenga  
*University of Brasilia, Brazil*
- Jose-Javier Alvaro  
*Centro de Astrobiologia, Madrid, Spain*
- John Arthurs  
*Holywood, County Down, Ireland*
- Dov Avigad
