Map 1. A geological map of the Brewery Creek property.

Cores sections A-A', B-B', C-C', and D-D' show key structural relationships. Inset maps 1 and 2 have been included to display areas with large amounts of data.

Inset map 1

Inset map 2

Legend:

- **Structural Features**
  - **Faults** (black dashed lines)
  - **Fold axes** (black solid lines)
  - **Margin of contact metamorphism** (green dashed lines)
  - **Open pit** (shaded area)
  - **Reserve Trend** (red line)

- **Mineralization**
  - **Mineralized zone** (red)
  - **Fossil sample locality** (blue)

- **Geology**
  - **Devonian** (gray)
  - **Middle Cretaceous** (brown)
  - **Cambrian to Ordovician** (green)
  - **Contact aureole** (yellow)

- **Lithology**
  - **Fossiliferous siltstone** (white)
  - **Graphitic argillite** (blue)
  - **Bedded barite** (red)

- **Other Features**
  - **Unconformity** (gray)
  - **Contact boundary** (green)

- **Geological Survey of Canada reference number** (black text)

- **Depth to intersection** (number within pentagon)

- **References**
  - **Schooner Deposit**
  - **West Big Rock**
  - **Golden Deposit**
  - **Canadian Deposit**

- **Map Symbols**
  - **Geographical north** (arrow)

- **Scale**
  - **0** to **10,000** meters

- **True North**

- **Mine Grid North**

- **North**
Map 2. A geological map of the Brewery Creek property overlain by topography and streams.
