CHAPTER 1) Sustainability, economy and society 1
Evil corporations, green celebrities and sustainability in popular culture 2
Introduction 2
Defining sustainability 3
Quality of life, consumption, sustainability and forms of capital 5
Weak versus strong approaches to sustainability 8
Core principles of sustainability 8
A brief history of sustainability 9
SPOTLIGHT Cadbury Fairtrade chocolate 13
Current forces for business sustainability 14
Idea generators and opinion leaders 15
Rulemakers and watchdogs 15
Business partners and competitors 16
Investors and risk assessors 16
Consumers and community 17
SPOTLIGHT The MBA Oath 18
The environmental, economic and social pillars of sustainability 19
Environmental dimensions 21
Economic dimensions 22
Social dimensions 23
Corporate governance: a fourth sustainability dimension? 25
SPOTLIGHT McWilliams Wines 25
Why sustainability is good business 26
Overview of this book 27
Summary 29
Key terms 30
Review questions 30
Discussion questions 30
Case study 31
Notes 32

CHAPTER 2) Sustainability, stakeholders and the nature of the firm 35
Sustainability and accountability at NBAD 36
Introduction 36
Stakeholder theory and practice 38
Stakeholders and sustainability 39
Stakeholder salience 41
Stakeholder management strategies 43
SPOTLIGHT Sustainability at Pacific Brands 45
Sustainability in internal and external business contexts 46
Factors influencing implementation of sustainability 46
Dynamic influences of government and civil society sectors 49
Business associations and industry groups 53
SPOTLIGHT Conservation Volunteers — ‘connecting people with our environment’ 54
Sustainability, sustainable development and paradigm change 55
Sustainability through accountability 56
SPOTLIGHT Increasing energy costs for Australian business 58
Frameworks for supporting business sustainability 59
Government frameworks 59
Civil society frameworks 59
International frameworks 60
Sustainability business indexes 60
Summary 61
Key terms 62
Review questions 62
Discussion questions 62
Case study 62
Notes 64

CHAPTER 3) Business ethics, corporate governance and corporate social responsibility 67
The myth of the amazing Nepalese porter 68
Introduction 68
SPOTLIGHT The corporation: bad apples, psychopaths or civic citizens? 70
Business ethics 71
Changing conceptions of business: from shareholders to stakeholders 71
Philosophical approaches to ethics 72
Ethical decisions 74
Building an ethical business culture 75
Ethics codes 76
SPOTLIGHT James Hardie: lessons in avoiding responsibility 77
Corporate governance 78
Principles of good corporate governance 79
The importance of partnerships 83
The importance of sound risk assessment and management 84
SPOTLIGHT ISO 26000: guidelines for social responsibility for business 86
Corporate social responsibility (CSR) 87
Definitions and dimensions of CSR 88
Types of CSR actions 89
Summary 91
Key terms 91
CHAPTER 4) The economics of sustainable development 99

Sustainable development and climate change 100
Introduction 100
What is sustainable development? 101
The mainstream view of the economy: the economy as an isolated system 102
The economy as a subsystem of the natural environment 103
Ecological and economic limits to growth 105
The linear throughput model 105
Ecological sustainability: environmental rules of thumb 107
Optimal and maximum sustainable scale of the economy 108
Sustainable development indicators 109
What is gross domestic product? 110
An indicator of economic welfare: the genuine progress indicator 112
An indicator of ecological sustainability: ecological footprint versus biocapacity 115
SPOTLIGHT Sustainable development in China: myth or reality? 116

Sustainable development: policy goals and instruments 117
Three major policy goals to achieve sustainable development 118
Three major policy instruments to achieve sustainable development 120
Cap-auction-trade systems to facilitate sustainable development 120

SPOTLIGHT Eco-taxes versus cap-auction-trade systems: which is best? 122

Sustainable development: potential business implications 123

SPOTLIGHT How a sustainable production philosophy can increase the profits of a business and benefit society 125
Summary 127
Key terms 128
Review questions 129
Discussion questions 129
Case study 129
Notes 131

CHAPTER 5) Sustainable business models 133

Ecostore 134
Introduction 134

Industrial ecology 136
Industrial ecosystems 136

SPOTLIGHT An industrial ecosystem in China 138
Barriers to forming industrial ecosystems 140
Biomimicry 141
Biomimetic design 141
Natural capitalism 143
Critique of natural capitalism 146
Cradle to cradle 147

SPOTLIGHT City Farm 149
The Natural Step 150

SPOTLIGHT Rocky Mountain Flatbread Company 151
Model of a sustainable business organisation 153

The Natural Edge sustainability model 154

Summary 156
Key terms 157
Review questions 157
Discussion questions 157
Case study 157
Notes 159

CHAPTER 6) Carbon management 161

Turning waste into energy 162
Introduction 162
Carbon emissions in Australia 163
A systematic approach to carbon management 164
Carbon footprint analysis 165

SPOTLIGHT Australian small business carbon footprint 169
Climate risk and opportunities 170
Energy efficiency 171
Renewable energy 172

SPOTLIGHT AGL 173

SPOTLIGHT Sustainable Dance Club 175
Emissions trading 176
Carbon offsets 177

SPOTLIGHT Coopers Brewery 179
Sustainable climate management 179

Summary 182
Key terms 182
Review questions 182
Discussion questions 182
Case study 183
Notes 184

CHAPTER 7) Strategy 187

The Body Shop 188
Introduction 188
Defining strategy 189
Contents

A sustainable world and sustainable business 190
A sustainable world 190
Sustainable business 191
The four levels of strategy 194
Enterprise strategy 194
Corporate strategy 195
SPOTLIGHT Better Place and electric cars in Israel 197
Business strategy 198
SPOTLIGHT McDonald’s and waste 198
Functional strategy 199
SPOTLIGHT Marketing strategies: greenwash, deep greenwash, and bluewash 200
The phases model 201
Compliance strategy 202
Efficiency strategy 207
SPOTLIGHT 3M and the Pollution Prevention Pays (3P) program 210
Strategic proactivity strategy 210
Sustaining corporation strategy 212
Summary 214
Key terms 215
Review questions 215
Discussion questions 215
Case study 216
Notes 217

CHAPTER 8) Sustainability accounting and reporting 219
Sustainability data wanted 220
Introduction 220
Financial accounting and reporting 221
Environmental accounting 222
Reasons to undertake environmental accounting 222
Environmental reporting 226
SPOTLIGHT Corporate reporting breakthrough with initial results from Puma’s environmental profit and loss account 229
Environmental management accounting 229
Physical information 230
SPOTLIGHT Wesfarmers sustainability scorecard 231
Monetary information 232
Linking physical and monetary information under EMA 233
Sustainability accounting and the Global Reporting Initiative 235
Linkage between sustainability accounting and reporting 236
Global Reporting Initiative (GRI) 238
SPOTLIGHT BHP Billiton sustainability reporting 240
Summary 244
Key terms 244
Review questions 244
Discussion questions 245
Case study 245
Notes 246

CHAPTER 9) Finance 249
Oil spill damages BP’s share price 250
Introduction 250
The development of the sustainable finance market 251
United Nations Principles for Responsible Investment 251
Global Reporting Initiative 251
Carbon Disclosure Project 252
Equator Principles 252
Market exchanges and legislation 252
SPOTLIGHT Westpac 253
Measuring sustainability 253
Some providers of sustainability information 254
SPOTLIGHT Sustainable Investment Research Institute (SIRIS) 255
Sustainability factors in valuation and investment 256
A review of some relevant concepts 256
Implications for sustainability 258
The relationship between sustainability, risk and returns 259
Why bother with sustainability? 261
Socially responsible investment 261
How socially responsible investing works 262
SPOTLIGHT Socially responsible superannuation 264
The size of the socially responsible investment market 265
Returns to socially responsible investments 265
Accusations of ‘greenwashing’ 265
Summary 267
Key terms 267
Review questions 268
Discussion questions 268
Case study 268
Notes 269

CHAPTER 10) Marketing and sustainability 273
How many planets does it take to support your lifestyle? 274
Introduction 274
Marketing basics 276
The four As of sustainable consumer behaviour 277
SPOTLIGHT Sustainable tourism 279
Assessing market demand for sustainable goods and services 279
Understanding consumer demand for sustainable products and businesses 280
Barriers to sustainable consumption 282
Eco-labelling and greenwashing 285
Emerging and alternative markets for sustainability 286

SPOTLIGHT Toyota Prius 290
Sustainable marketing strategy and practice 291
  Sustainability challenges for traditional marketing 291
  Core features of sustainability marketing strategy 292

SPOTLIGHT Sustainability marketing at Henkel 293
  Elements of the sustainability marketing mix 294

SPOTLIGHT Ergon Energy’s ‘10% less’ campaign 298
Principles of effective social marketing 298
  Understanding stakeholders 300
  Effective persuasive communication 302
  Solutions that cut costs and support convenience 305

Summary 307
Key terms 308
Review questions 308
Discussion questions 309
Case study 309
Notes 311

CHAPTER 11) Sustainable production 315
Changing responsibilities of producers 316
Introduction 316
Basic environmental responsibilities of producers 318
  Compliance with environmental laws 319
  Self-regulation 321
  Expectations of continual improvement 321
  Environmental reporting 323

SPOTLIGHT Environmental management systems at Tyco Water 324
Eco-efficiency: doing more with less 325
  The theory and application of eco-efficiency 325
  Implementing eco-efficiency 326
  Examples of eco-efficiency opportunities and clean technology 330

SPOTLIGHT Eco-efficiency for the Australian dairy industry 332
Life cycle perspectives on production 333
  Life cycle assessment 333
  Extended producer responsibility 335
  Eco-redesign 336

SPOTLIGHT Fuji Xerox: at the forefront of sustainable production 336
Summary 338
Key terms 338
Review questions 338
Discussion questions 339
Case study 339
Notes 341

CHAPTER 12) Human resources and sustainability 343
The Good Guys: sustainability leadership at work 344
Introduction 344
The human foundations of the sustainable organisation 345
  Setting the foundations for sustainability success 349
  Developing the business case for sustainability 351
  Establish a strategic orientation to sustainability 352

SPOTLIGHT Qprint: even small organisations can do it 353
Organisational change and sustainable business 354
  Utilise change capabilities 354

SPOTLIGHT Yarra Valley Water: building a sustainable future 355
The internal dimension of sustainable business 357
  Developing a sustainability culture 357

SPOTLIGHT Leadership for sustainability 361
Summary 363
Key terms 363
Review questions 363
Discussion questions 364
Case study 364
Notes 365

CHAPTER 13) Global environment 367
The global environment — the biggest sustainability challenge 368
Introduction 368
The global environment and sustainability 369
  Mapping approaches to environmental sustainability 370
  Sustainability and the global environment today 372
  The ecological footprint: a tool for understanding the health of the global environment 373

SPOTLIGHT Peak food 375
Climate change and carbon emissions 375
  The science of climate change 376
  Climate change impacts 378
  Responding to climate change 379

SPOTLIGHT Renewable energy businesses — opportunities in Australia and New Zealand 382
SPOTLIGHT Overview of carbon-reduction schemes around the world 384
Biodiversity 385
  What does biodiversity do for us? 386
  Biodiversity loss 386
  Key strategies to protect biodiversity 388

SPOTLIGHT Water sanitation in Bangladesh 390
Summary 392
Key terms 392
Review questions 392
