Foreword

The study of federal tax law in Australia has been described by some as daunting and complex. In his 1987 Foreword to the first edition of *Australian Taxation Law*, Graham Hill, QC recognised that the “torrent of decisions, judicial and administrative, . . . together with the outpourings of the legislature, have made the study of taxation almost unmanageable.”

Over twenty years on, federal taxation law continues to expand and students continue to face difficulties in identifying and understanding the areas of the law they require for their specific taxation courses.

While **Australian Taxation Law 2013** provides a comprehensive coverage of the tax law, many tax courses can only properly cover a portion of the law. As a result, large parts of the book are often not required for a particular course. Students studying tax cannot simply rely on commentary books for a complete understanding of the tax law. It is essential that they read the actual legislative provisions that underpin the commentary.

To help address these challenges, CCH is pleased to publish this third edition of **Australian Taxation Law Select — Legislation & Commentary**. This customised book combines, in a single volume, key legislative provisions dealing with Australian income tax along with carefully selected commentary from **Australian Taxation Law 2013**. The book is ideal for students studying introductory tax courses and provides a relevant and handy alternative to purchasing full volumes of Australian income tax legislation and the complete version of the **Australian Taxation Law** text.

This edition includes selected provisions from the *Income Tax Assessment Act 1936*, the *Income Tax Assessment Act 1997*, the *Income Tax Rates Act 1986*, *A New Tax System (Goods and Services Tax) Act 1999* and the *Taxation Administration Act 1953*.

This edition also includes the *full* **Australian Taxation Law 2013** chapters on:

- Introduction to income tax law
- Non-assessable income
- Tax accounting, and
- Goods and services tax.

Australian Taxation Law Select — Legislation & Commentary 2013 further contains selected parts of chapters covering:

- Tax formula, tax rates and tables, and tax offsets
 - General principles of assessable income including income from property and business
 - CGT
 - General and specific deductions
 - Capital allowances and capital works
 - Trading stock
 - Small business entities and concessions
 - Taxation of partnerships and trusts
-

- Taxation of corporate entities and their members
- Corporate tax losses, net capital losses and bad debts
- Special taxpayers and incentive schemes
- Superannuation
- FBT.

This edition incorporates legislative, case law and administrative reforms that have taken place in taxation law up to 1 July 2012, as well as various major developments that have occurred since that date.

Note that there will be cross-references to paragraphs that are contained in this customised version and also to paragraphs that have not been selected for inclusion in this edition.
