TABLE OF CONTENTS

Volume III

List of Figures	viii
List of Tables	xii
List of Color Plates	xiv
14. Food and Agricultural Engineering Resources	
14.1 Agricultural Land Improvement: Amelioration and Reclamation <i>B. S. Maslov, Russian Academy of Agriculture Sciences, Russia</i>	1
14.2 Agricultural Mechanization and Automation <i>P. B. McNulty and P. M. Grace, National University of Ireland, Eire</i>	33
14.3 Management of Agricultural, Forestry, and Fisheries Enterprises <i>R. J. Hudson, University of Alberta, Canada</i>	59
15. Human Resources Policy and Management	
15.1 Sustainable Human Development in the Twenty-First Century: An Evolutionary Perspective <i>I. Sirageldin, Johns Hopkins University, USA</i>	73
15.2 Social and Cultural Development of Human Resources <i>T. Hamada, College of William and Mary, USA</i>	101
15.3 Global Resource System Challenge: Education <i>N. P. Tarasova, D. I. Mendeleev University of Chemical Technology, Russia, and B. J. McGettrick, University of Glasgow, UK</i>	127
15.4 Environmental Education and Awareness <i>G. A. Yagodin, International University, Moscow, Russia, and K. S. Oganessian, D. I. Mendeleev University of Chemical Technology, Russia</i>	151
15.5 Human Resources and Their Development <i>M. J. Marquardt, George Washington University, USA, and V. Mtshontshi, Institute for Partnerships between Education and Business, South Africa</i>	167
15.6 Human Resources Challenge: Major Potentially Disadvantaged People <i>E. Barbieri-Masini, Gregorian University, Italy</i>	195
16. Natural Resources Policy and Management	
16.1 Earth System: History and Natural Variability <i>V. Cilek, Institute of Geology ACSR, Czech Republic, and R. H. Smith, University of Cambridge, UK</i>	213
16.2 Natural Resource System Challenge: Climate Change, Human Systems, and Policy <i>A. Yotova, National Institute of Meteorology and Hydrology, Bulgaria</i>	235
16.3 Natural Resources of the World <i>J. Arceena and K. G. Driscoll, University of Northern British Columbia, Canada</i>	261
16.4 Natural and Human-Induced Hazards <i>C. Yong, China Seismological Bureau, China</i>	291
16.5 Natural Resource System Challenge: Oceans and Aquatic Ecosystems <i>E. Wolanski, Australian Institute of Marine Science, Australia</i>	311
16.6 Biodiversity Conservation and Habitat Management <i>F. Gherardi, C. Corti, and M. Gualtieri, Università di Firenze, Italy</i>	325
16.7 Nonrenewable Resources <i>S. B. Suslick and I. F. Machado, State University of Campinas, Brazil</i>	363

16.8	Land Cover and Land Use <i>W. H. Verheye, University of Ghent, Belgium</i>	383
17. Development and Economic Resources		
17.1	Introduction to Sustainable Development <i>D. V. J. Bell and Y-k. A. Cheung, York University, Canada</i>	411
17.2	The Evolving Economics of War and Peace <i>J. K. Galbraith, University of Texas, USA</i>	441
17.3	Economics Interactions with Other Disciplines <i>J. M. Gowdy, Rensselaer Polytechnic Institute, USA</i>	447
17.4	Principles of Sustainable Development <i>L. K. Caldwell, Indiana University, USA</i>	459
17.5	Welfare Economics and Sustainable Development <i>Y.-K. Ng and I. Wills, Monash University, Australia</i>	485
17.6	Dimensions of Sustainable Development <i>R. Seidler and K. S. Bawa, University of Massachusetts, USA</i>	507
17.7	International Economics, Finance, and Trade <i>P. M. Sgyo, Deakin University, Australia</i>	519
17.8	Environment and Development <i>A. Lu, Chinese Academy of Social Sciences, China</i>	541
17.9	Global Transformations and World Futures: Knowledge, Economy, and Society <i>S. Inayatullah, Queensland University of Technology, Australia</i>	559
18. Institutional and Infrastructural Resources		
18.1	Institutional Issues Involving Ethics and Justice <i>R. Elliot, University of the Sunshine Coast, Australia</i>	573
18.2	International Relations <i>J. Wiener, University of Kent at Canterbury, UK, and R. A. Schrire, University of Cape Town, South Africa</i>	591
18.3	The Role of International Law and Institutions <i>A. Schwabach, Thomas Jefferson School of Law, USA, and A. J. Cockfield, Queen's University, Canada</i>	611
18.4	Democratic Global Governance: Issues, Resources, Opportunities <i>I. L. Murphy, Consultant, USA</i>	627
18.5	Conflict Resolution <i>K. W. Hipel, University of Waterloo, Canada</i>	645
18.6	Institutional and Infrastructure Resource Issues: Conventions, Treaties, and Other Responses to Global Issues <i>G. Kütting, University of Aberdeen, UK</i>	665
18.7	Culture of Peace <i>F. Mayor, Spain</i>	685
18.8	International Security <i>B. Heurlin and K. S. Kristensen, Danish Institute of International Affairs, Denmark</i>	693
18.9	Institutional and Infrastructure Resources: National and Regional Institutions and Infrastructures <i>N. E. Harrison, University of Wyoming, USA</i>	721
19. Technology, Information, and Systems Management Resources		
19.1	Systems Engineering and Management for Sustainable Development <i>A. P. Sage, George Mason University, USA</i>	747
19.2	The Sustainable Built Environment <i>J.-J. Kim, University of Michigan, USA</i>	789
19.3	Science and Technology Policy <i>R. Arvanitis, Institut de Recherche pour le Développement (IRD), France</i>	811
19.4	Knowledge Management, Organizational Intelligence and Learning, and Complexity <i>L. D. Kiel, University of Texas, USA</i>	849

TABLE OF CONTENTS

19.5	Globalization of Technology: Issues in Technology Transfer and Technological Capability Building <i>P. Reddy, Lund University, Sweden</i>	875
19.6	World3 and Strategem: History, Goals, Assumptions, Implications <i>D. L. Meadows, University of New Hampshire, USA</i>	889
19.7	Integrated Global Models of Sustainable Development <i>A. Onishi, Centre for Global Modeling, Japan</i>	901
19.8	Systems Analysis and Modeling of Integrated World Systems <i>V. N. Livchits and V. N. Sadosky, Russian Academy of Sciences and V. V. Tokarev, Moscow State University, Russia</i>	921
19.9	Ethics and Science <i>K. Matsuura, UNESCO, France</i>	941
19.10	Transformations of Social and Ecological Issues into Transdisciplinary Research <i>E. Becker, Institute for Social-Ecological Research (ISOE), Germany</i>	949
19.11	Evaluation of Transdisciplinary Research <i>M. Krott, University of Göttingen, Germany</i>	965
20. Regional Reviews		
20.1	An Overview of Sustainable Development in Africa <i>E. K. Boon, Free University of Brussels, Belgium</i>	975
20.2	Perspectives on Sustainable Development in Brazil <i>L. E. Sanchez, University of São Paulo, Brazil</i>	989
20.3	Canada and the United States of America: Overview of the Physical and Human Dimensions of Life Support Systems <i>L. C. Nkemdirim and D. Draper, University of Calgary, Canada</i>	1019
20.4	Regional Sustainable Development Review: China <i>S. Hongjie, S. K. Cheng, and Q. W. Min, Chinese Academy of Sciences, China</i>	1043
20.5	Regional Sustainable Development Review: Japan <i>Y. Himiyama, Hokkaido University of Education, Japan</i>	1067
20.6	Regional Sustainable Development Review: Russia <i>N. P. Lavevov, Russian Academy of Sciences</i>	1087
	Index	1115

■ The **Encyclopedia of Life Support Systems (EOLSS)** is a truly twenty-first century knowledge base that provides state-of-the-art information and expert opinion on virtually every aspect of the global life support systems on which we depend. Published in collaboration with UNESCO, the EOLSS gathers specialists from across the world in a unique endeavour. It attempts to forge pathways among disciplines in order to show their interdependence and to foster the transdisciplinary approach required for a holistic view of sustainable development.

■ **Knowledge for Sustainable Development** is simultaneously published with the on-line version of the **Encyclopedia of Life Support Systems** ([www.http://www.eolss.net](http://www.eolss.net)). The three volumes of **Knowledge for Sustainable Development** present a selection of articles, written for a broad readership by outstanding specialists, together providing an overview of present-day knowledge on the main issues covered by the Encyclopedia. Beyond this introductory insight, which is essential to grasp the global relevance of each main theme, each article provides a listing of its specialized in-depth treatment on-line.

■ **Volume 3** offers a comprehensive view of food and agricultural engineering resources, policy and management of human and natural resources, development and economic resources, institutional and infra-structural resources, as well as technology, information and systems management resources, completed by an overview of sustainable development in different parts of the world.

■ The **Encyclopedia of Life Support Systems** is a valuable guide and reference tool for scientists and specialists in many fields. It will particularly interest those working in the natural sciences, social and behavioural scientists, engineers and technologists, economists, professional practitioners, educators, researchers, students, conservationists, environmentalists, industrialists, managers, law and policy makers, policy analysts, planners in the public and private sectors, and those involved in development in government and non-government organizations.
